

My family are listeners of K-LOVE radio which is heard over a FM translator. Without this station we and our friends do not have another quality christian station to listen to and get information on global current affairs of the christian community. I have known of local people in my community that have come to a saving knowledge of Jesus Christ because they were scanning the radio and ran across this station. It would be a shame to lose this valuable station. There are so few stations that I do not get embarrassed by with some of the bad language and insinuations. Thank you for your time in reading my comments.
